

Air sampler ASPIRO 1200

The air sampler allows sampling of a high volume of air within a short period of time:

- Draw in of surrounding air
- Filtration of the sucked air and sampling of the contained particles through filter paper
- Then, the filter will be analyzed in separate special monitors.
- Operating time: programmable until 100 hours
- Air flow rate indicator (Vacuumgauge)
Thermostat, 5 m safety cable
- Delivery with test protocol (incl. air flow rate)
- 230 V / 50 Hz / 1.4 kW

Sampling air flow rate with new filters:

Filter diameter	Cellulose [l/min.]	Glass fibres [l/min.]	activ. Charcoal [l/min.]
105 mm	1330	1700	---
155 mm	2230	2350	1250
200 mm	2500	2470	1330

Item no.	Air Sampler	
103441	ASPIRO 1200 incl. filterholder D=105 mm	
Accessories for ASPIRO 1200:		
116080	Filter holder attachment D = 155 mm for filter holder D = 105 mm for filter paper D = 155 mm	
111268	Filter holder attachment D = 200 mm for filter holder D = 105 mm for filter paper D = 200 mm	
100611	Retaining spring for mounting the anemometer (103481) on the filter holder D = 105 mm, 3 pcs. are needed	

Item no.	Air Sampler	
114165	ASPIRO 1200 ACF incl. filterholder D=155 mm	
Accessories for ASPIRO 1200 ACF		
145141	Filterhalteraufsatz D = 200 mm für Filterhalter D = 155 mm für Filterpapiere D = 200 mm für ASPIRO 1200 ACF	
114512	Adapter für Anemometer für den Filteraufsatz D = 155 mm inkl. Haltefedern	

Accessories for ASPIRO 1200 and ASPIRO 1200 ACF		
103481	Impeller anemometer for measuring the air volume flow for filter holder D = 105 mm	
115979	Calibration certificate for impeller anemometer	

Filter paper for ASPIRO 1200 and ASPIRO 1200 ACF
